### Innovations in medical surgery and therapy - this is what we are committed to.

Leading medical technology companies around the world rely on the 3D navigation technologies from NDI - the market leader for more than 20 years. Our competence as an innovative high-tech company supports the implementation of modern, digital solutions in medical fields of application and is a central component of our success.

#### INSIDE

People work for NDI at four locations around the world. The cultural diversity in our successful company and the requirements of our global customers ensure a motivating work environment. The knowledge, enthusiasm and experience of our employees are essential for our success. We know each other by name - including our colleagues in Canada, the USA and Hong Kong. We trust, respect and are honest with each other.

#### TASKS

For our Quality Management department, we are looking for you as a committed personality:

- In cooperation with various departments, you are responsible for our complaints management. Because you are a strong communicator, you are also the first point of contact for our customers.
- In addition, you will be responsible for deviation management: As CAPA manager, you coordinate preventive and corrective measures as well as various process optimizations.
- You will independently conduct internal audits in our specialist departments to monitor the maintenance of our ISO 13485-certified QM system, uncover optimization potential and thus move us forward
- Because structured work is one of your strengths, tasks such as document management and performing data analyses are easy for you.

#### PROFILE

- You are already familiar with quality or process management based on ISO 13485 or ISO 9001 because you have already gained several years of experience in these areas - the basis for your knowledge is a completed apprenticeship or a university degree.
- Do you have good technical understanding and enjoy working in a team, coordinating tasks, and communicating with external and internal departments? Then you are a perfect fit for us!
- You are optimally prepared for the international environment with our Canadian and American colleagues as well as our international customers through good German and English skills.
